Subject: Formal Opposition to Transmission Company Victoria Pty Ltd (TCV) Electricity
Transmission Licence Application
Attachments: TCV Licence Application Objection.pdf

Dear Sir/Madam,

I hope this email finds you well. Please find attached my formal letter of opposition on behalf of the Energy Grid Alliance (EGA) regarding Transmission Company Victoria Pty Ltd's (TCV) application for an electricity transmission licence.

This submission outlines several concerns, including TCV's transparency, technical capacity, and compliance with regulatory requirements. We strongly believe that granting this licence would not be in the best interests of the community or the electricity market in Victoria.

I trust that the Essential Services Commission will give careful consideration to the points raised.

Thank you for your time and attention.

Kind regards,

Darren Edwards
Director
Energy Grid Alliance
