

Approved Auditor List – Annual Energy Acquisition Statements

The following persons have been approved by the commission for the purpose of auditing energy acquisition statement audits. However, the commission does not endorse or make any representations on the quality of services provided by auditors on this auditor list. Inclusion on the list indicates that auditors have represented to the commission their ability to conduct energy acquisition statements.

It is recommended that relevant entities assess the suitability of auditors independently before engaging their services. The commission reserves the right to adjust or amend the list at its discretion.
