

Minimum feed-in tariff 2023-24

Submission received through Engage Victoria

Date submitted: 20/12/2022

Submission written by: Robert Lotric

From December 2022, we began accepting submissions on our Minimum feed-in tariff review 2023-24 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

What parts of our proposed methodology for setting the minimum single and time-varying feed-in tariff rates do you consider are appropriate?

What parts of our proposed methodology should we change?

Value calculation to retail users

For our overall methodology, or parts of it, what alternative methodologies should we consider?

Giving people a break. The feed-in tariff has halved since I installed my system in 2018. Since retail buyers of rooftop solar calculate payback over about 5 years typically, previous decisions by Engage Victoria have trashed the equation. The Government should lock in feed-in tariffs that are in place at the time of installation for five
